

If you want to report a bug or simply have something to tell us, you can send us a message from the editor.

## Option 1: Unity editor extension

- Select **Tools Charon Troubleshooting Report Issue**.
- Fill in the form
  - Don't forget your email if you want to receive a reply from us. Otherwise you can just write down your name.
  - Select message type
  - Describe the bug you've encountered/your feedback
- Attach any files you consider relevant
- Click **Send**

## Option 2: Standalone application

To send us a message you should use a [command line](#) command:

```
Charon.exe SERVER REPORTISSUE
```

Prompts to enter information will appear. As soon as you enter all required information, message will be sent automatically.
